DIARY NOTES

DD/S

26 May 1960 25X1A

With the Director, Ed Saunders, Matt Baird, [REDACTED] 25X1A9a  
appeared before the House Appropriations Committee to put forth our proposal 25X1A6a  
convert [REDACTED]. They approved of the entire concept and  
specifically the construction of the housing in this fiscal year. This leaves only  
the Senate Appropriations Committee to obtain approval from, and in view of the  
fact that the Bureau of the Budget and the House have already approved, I would  
anticipate no difficulty. In fact, the House Committee seemed to want us to go  
ahead as fast as possible. If we can scrape up more money next year we can  
probably complete this project earlier than anticipated.
